

Warranty Agreement

1 YEAR LIMITED WARRANTY ON 501 FLOW HARDWARE

501 Engineering warrant that the 501 Flow shall be free of defects in workmanship and materials under normal use and service for a period of one year from the date of purchase. In the event a 501 Flow covered by this warranty fails to operate according to our published specifications, 501 Engineering will repair the unit at no charge to the customer, and pay return shipment fees. The customer is responsible for any freight damage.

This warranty does not apply to serviceable or consumable items (such as batteries, ropes, etc). Sensor packages manufactured by other companies (such as CTDs) are not covered under this warranty.

Consequential or Incidental damages or costs incurred due to product malfunction or misuse are not the responsibility of 501 Engineering.
